Our Mission

TO MAKE READY A PEOPLE PREPARED
FOR THE LORD. Luke 1:17b

Evangelizing the sinner to bring them into the fellowship with Christ and membership with the Church. **Equipping** the Saint through Bible Study and teaching, to disciple them for ministry and develop them into Christ like maturity. **Exalting** the Savior through Worship and Praise that is reflective of true faith, love and adoration for Him.

How Can You Be Saved?

John 14:6 "Jesus saith unto him, I am the way, the truth and the life, no man cometh unto the Father, but by me." An invitation is given near the close of each service at St. Luke Memorial. If the Holy Spirit should speak to your heart, asking you to make a public decision for Jesus, we urge you to follow His will. In coming forward, you should desire to be a part of our congregation. You may share with the church clerk which way you desire membership: Christian Experience, Baptism or by Letter.

Join us ONLINE for worship via Facebook Live or YouTube
Sundays at 10:30 am

Announcements and updates should be given, in writing, to our Church Clerk, Sis. Jeanette Thomas. Also, if you know of any members in the hospital, or nursing homes or if members would like to be added to the prayer list please let us know.

Protecting yourself during the COVID-19 pandemic

COVID-19 is believed to spread mainly from person-to-person, between people who are in close contact with one another (within about 6 feet) or through respiratory droplets produced when an infected person coughs or sneezes.

Precautions to prevent the spread of COVID-19 are the same as those you would typically take during a normal flu season.

- Wash your hands often with soap and water for at least 20 seconds.
- Cover your nose and mouth with a tissue or use your elbow to cover your mouth and nose when you cough or sneeze.
- Avoid touching your face.
- Stay home if you are sick with cold or influenza-type symptoms to minimize risk of transmission to others.
- Clean frequently touched surfaces and objects daily (e.g., tables, countertops, light switches, doorknobs, and cabinet handles) using a regular household detergent and water.
- If surfaces are dirty, they should be cleaned using a detergent and water prior to disinfection. For disinfection, a list of products with Environmental Protection Agency (EPA)-approved emerging viral pathogens claims, maintained by the American Chemistry Council Center for Biocide Chemistries (CBC), is available at Novel Coronavirus (COVID-19) Fighting Products. Always follow the manufacturer's instructions for all cleaning and disinfection products.
